PROFESSIONAL SUMMARY

Detail-oriented Full Stack Developer with hands-on experience building responsive, user-friendly web applications using React.js, JavaScript (ES6+), HTML5, CSS3, Node.js, and MongoDB. Skilled in REST API integration, performance optimization, and collaborative development with strong knowledge of modern web technologies.

EXPERIENCE

Full Stack Development Intern, Bairuhatech

Jan 2025 – May 2025

- Developed front-end modules using React.js for improved UI performance and user experience.
- Built back-end REST APIs using Node.js and MongoDB to support application functionality.
- Contributed to version control workflows and participated in team-based testing using Git and GitHub.

TECHNICAL SKILLS

Frontend: React.js, Redux, HTML5, CSS3, Bootstrap, Tailwind CSS, JavaScript (ES6+), Responsive Web Design

Backend: Node.js, Express.js, Python, REST API

Databases: MongoDB, MySQL

Tools: Git, GitHub, Postman

PROJECTS

Hospital Management System

- Developed front-end modules using React.js and integrated Node.js REST APIs with MongoDB.
- Implemented role-based access control and real-time outpatient (OP) number generation.

CleanCity360

- Built a MERN stack-based garbage management system with role-based access for Admin, Worker, and User roles.
- Implemented JWT authentication, REST APIs, and MongoDB for efficient data management.

Photography Hub

- Developed a full-stack web application using Python, HTML, and CSS with role-based authentication.

Medizone

- Built a web application to improve accessibility of generic medicines, featuring secure forms and location-based services.

EDUCATION

Master of Computer Applications (MCA)

Aug 2023 – May 2025

APJ Abdul Kalam Technological University

Bachelor of Science in Computer Science (BSc CS)

Sep 2020 – Apr 2023

University of Calicut

CERTIFICATIONS

- Internet of Things (IoT) – NPTEL | 2024
- MERN Stack Development
